PAR 242

Color Demonstration Material

13 August 1965

Declass Review by NGA.

PROJECT AUTHORIZATION REQUEST

PAR 242

13 Aug 65

SUBJECT: Color Demonstration Material

TASK/PROBLEM

1. Provide samples of color material demonstrating the various color reproduction systems investigated under PAR 213, Color Reproduction Systems Review.

PROPOSAL

2. In order to adequately demonstrate the relative quality of the several reproduction systems described in PAR 213, seven transparencies, suitable for teleprompter slide mounting (approximately 4" x 5") will be prepared and delivered to the customer.

3. Each transparency will be made from a single scene (to be selected by the customer) but will be produced through the systems outlined below:

	<u>Original</u>	<u>Intermediate(s)</u>	<u>Slide</u>
a.	SO-121	SO-108, 5270	5X to 6109
b.	SO-121	SO-121, 5270	5X to 6109
c.	SO-121	5270	5X to 6109
d.	SO-121	5X to 6110	6109
e.	SO-121		5X to SO-271
f.	SO-121		SO-121
g.	SO-121	4404	8430

PROGRAM OBJECTIVE

4. Prepare and deliver seven color transparencies to demonstrate relative quality of color reproduction systems described in PAR 213. No final report is required.

SCHEDULE

5. A tentative schedule covering major phases of effort is shown in Figure 1. The time span indicated to complete the subject program is based on actual start of work. Upon approval to proceed and/or start of work, schedule will be reviewed and necessary changes reported as required.
